PARMA SOUTH, A STADIRANO, a small village in the municipality of LESIGNANO DE BAGNI, placed along the plain-hill interface and therefore a natural place of passage between the different realities of the Emilian mountains and the "low" Po Valley, enhanced by important naturalistic-environmental realities, we highlight the nearby Park of "Barboi" that collects agricultural and natural biodiversity, the gullies, the presence of numerous olive trees and protected plant species, as well as the structured presence of various "nature trails", to be traveled on foot and on horseback. Immersed in this magnificent natural oasis, was born the "Dimora." The dominant position that characterizes it offers a panorama that stretches as far as the eye can see over the valleys and towards the mountains, three hundred and sixty degrees on the green, sunrises and its sunsets....
