DESCRIPTION

Villa surrounded by greenery with enchanting panoramic view

Surrounded by the silence and beauty of the Mediterranean scrub, this elegant villa, masterfully followed by architect Couelle, fits harmoniously into a private park of about one hectare, dotted with olive trees and typical Sardinian essences. The view opens to the sea, giving a feeling of freedom and serenity that accompanies every moment of the day. The house is on two levels connected in a natural way, designed to live in continuity of indoor and outdoor spaces. The main floor welcomes with a large living room with exposed wooden beams, where the light enters generously and the gaze is lost on the panorama. From here there is access to a covered veranda that overlooks the pool, creating a convivial and relaxed environment. The kitchen, made

with warm and natural materials, dialogues perfectly with the living area, while a master bedroom with en suite bathroom and an additional service bathroom offer intimacy and comfort. The lower level reveals an additional living area that opens up to the garden, with a second kitchen and three bright rooms, two of which have en suite bathrooms that complete the sleeping area and a service bathroom on the floor. Each room is meticulously detailed, maintaining a consistent and refined style. Outside, the villa blends with the surrounding nature: a lush garden surrounds the swimming pool with solarium, creating an oasis of quiet and beauty. A stream gently flows through the property, enriching the atmosphere with authenticity and harmony....
