DESCRIPTION

Noble Palace in the Historic Center

Adjacent to one section of the palace stands another important architectural testimony of the Neretina Renaissance, a historic wing once owned by Baron Personè, an aristocrat of great influence within the cultural and social life of the city. Inside the structure currently for sale, numerous authentic traces of the past are still preserved, telling the story and prestige of the residence through decorative frescoes, historic stone pavements, period mosaics, elegant parquet floors, a grand representative staircase and antique paintings that enrich the interiors. Particularly noteworthy are the historic mosaics, among the first works created by the Peluso brothers, renowned masters of mosaic art whose craftsmanship became a reference in the region. One of the

most enchanting spaces is undoubtedly the baron's bedroom, preserved with remarkable care and still retaining its original details that evoke the aristocratic atmosphere of the residence. Among the many historical features that distinguish the property, special mention must be given to the ancient stables, where the original horse harnesses decorated with the family's heraldic emblem are still preserved, and to the evocative underground spaces that according to tradition once hosted secret passages connecting the residence to the nearby castle. Thanks to its historical value, architectural richness and spatial distribution, the property represents an ideal opportunity both as a prestigious private residence and as a refined boutique hospitality project.
