## DESCRIPTION

# Contemporary elegance meets seaside charm: sea-view residence in prestigious Tahitimare

Contemporary elegance meets seaside charm, resulting in a residence that expresses prestige, harmony and well-being in every detail. Inside the renowned Tahiti Mare residence, this apartment is distinguished by bright and finely designed rooms, where the large windows create a natural continuity between inside and outside. The large terraces become the true protagonists of living: authentic stages facing the light and the sea, perfect for experiencing every moment of the day, from breakfast to sunshine to the most evocative sunsets. Here, sea breezes, quietness and natural light transform everyday life into an experience of absolute relaxation. The setting expresses an evolved vision of luxury living: manicured pathways immersed in greenery lead to a private oasis, while the scenic heated infinity pool, overlooking the shoreline, recalls the atmosphere of an exclusive resort. Refined finishes,

contemporary design and state-of-the-art technologies, combined with a focus on sustainability, make this property ideal for a discerning clientele - families, couples or investors - seeking an exclusive lifestyle where comfort, privacy and beauty come together in perfect balance.

**LOCATION** In the heart of Jesolo Lido, in one of the most desirable locations on the coast, the residence faces directly onto the sea, offering immediate access to the beach and a rare quality of life. A few minutes' walk will take you to Via Dante and the renowned Via Bafile, the pulsing heart of the city, with high-end restaurants, boutiques, clubs and services of all kinds. Jesolo represents one of the most prestigious destinations on the Adriatic: a well-equipped marina, golf courses, events, entertainment and a lively cultural scene make this location perfect for both relaxation and leisure....
