DESCRIPTION

MIRANO CENTRO, TIMELESS ELEGANCE AND COMFORT

Mirano - In a central location, inside a charming historic building of the early 1900s, expertly restored and renovated, comes to life a property with unique characteristics, where elegance of yesteryear, prestige and modern comfort come together in perfect harmony. The absolute protagonist is the large living area, flooded with natural light throughout the day thanks to the excellent exposure and numerous windows. The exposed beams, present in all rooms, give warmth, character and timeless

elegance. The distribution of spaces has been carefully designed to ensure maximum well-being and optimal functionality in daily life. A double garage and a parking space complete the property. A living solution that combines comfort, privacy and high standards of energy efficiency, ideal for those seeking quality and style in a central location. Some images are for illustrative purposes only, they are made to offer an orientative idea of the possible final result. Request € 590,000.00
