DESCRIPTION

Prestigious penthouse with sea view in city center

A model of timeless elegance and functionality between Piazza Unità and the Grand Canal. Living on the top floor of one of Trieste's most iconic architectures means combining the city's historic prestige with a thoroughly contemporary conception of space. This bilevel penthouse is the result of a masterful restoration, designed for those seeking maximum privacy and cutting-edge comfort. The spacious open-plan living area, bright and inviting, opens onto modern-designed rooms and includes a private gym. On the upper floor, the master suite, with private bathroom, walk-in closet and freestanding bathtub in the room represents the ideal synthesis of

comfort, elegance and intimacy. The true emotional center of gravity of the residence is the panoramic terrace overlooking the sea, served by a second indoor kitchen that makes any moment of conviviality or absolute relaxation above the rooftops of the city impeccable. A unique living experience, suspended between the historic charm of the central Piazza della Borsa and the enchanting beauty of the gulf. Delivery is scheduled for spring 2027. Within the same exclusive context, first-entry apartments with different sizes and customization possibilities are still available for sale. Full documentation and Full Exposé are available upon request.
