DESCRIPTION

An architectural work of art returned to the future

Beyond history: a manifesto of contemporary luxury in the city. At the city's most prestigious meeting point stands a manifesto of period architecture restored to the future. Between historical solemnity and eco-sustainable avant-garde, the entirely redeveloped building offers a sophisticated living experience just a few steps from Piazza Unità d'Italia, the Rive and the charms of the Grand Canal. On the third floor with an elevator, this apartment is revealed through a large, dramatic entrance hall that leads to the living area. From here there is access to the balcony, an exclusive overlook that offers an evocative glimpse of the sea. It is an invitation to breathe in the marine atmosphere while remaining

protected by the quiet of one of the quietest and most refined pedestrian streets in the city. Every detail recalls the minimal and luxurious aesthetics of the entire project, designed for those who seek the perfect synthesis between the grandeur of a historic building and contemporary technological comfort. To live here means to own a fragment of Trieste's cultural history, redefined according to the standards of sustainable luxury and inserted in the most desired and dynamic urban context of the city. Within the same prestigious context are for sale first-entry apartments with different sizes and customization possibilities. Full documentation and Full Exposé are available exclusively upon request.
