DESCRIPTION

Modern two-level apartment with terraces and lake views in Onno

Just a short walk from Onno Beach, within a well-maintained, recently built complex, we are offering a bright 125-square-meter apartment. The property, rated energy class A2, features clean lines, high-quality finishes, and a pleasant view of Lake Como and the surrounding mountains. The entryway opens onto an open-concept living area, where hardwood floors complement the exposed light-colored wooden beams. The living room and modern kitchen are very bright thanks to the large sliding glass doors. From here, you can access a spacious covered terrace—a comfortable spot to relax or enjoy an outdoor meal while gazing out at the lake. On the same floor are a

master bedroom with direct access to the outdoors and a modern bathroom with a shower. A designer staircase leads to the upper attic floor, which also features exposed, bleached wooden beams. This floor serves as a second sleeping area, complete with a small private balcony offering an even more unobstructed view of the water. The property also includes a convenient double garage. Thanks to its well-planned layout, the home is a great choice both as a primary residence and as a vacation home. Its location in Oliveto Lario is convenient: a short distance from Lecco and Bellagio, it offers easy access to restaurants, sports activities, and nature trails.
